

Monstrosity, Horror Infinity

Bloodspray, Slaughter
A prophecy of traumatic despair
Echoes of promise
Now parasite infested
They feast upon your flesh
Eternal horror...

Abysmal sights
Of the final seize
Oppressing lives
Lurid memories
Days are lost
And filled with hate
Encased in ruin
Guilt ridden fools

Our destiny in fallen ruin
Fear subsides, we travel through
Faded skies now bequeath
This timeless torture violates

Horror infinity
Shrouded destiny
Pain is all we see
Life it cannot be

The winter's storm
Takes us all
A blast of fire
Makes it's call
Dark depression
Sweeps the streets
Burning all
The task complete

Witness misprinted as witness anguish,
Revolutions pass
The invocation of revelations cast
Spawn of horror, endless well
Our burning coffins shipped straight to hell

Horror infinity
Shrouded destiny
Pain is all we see
Life it cannot be

Through deepest valleys of distorted thought
Clutching for reason we've harnessed our fall

Abysmal sights
Of the final seize
Oppressing lives
Lurid memories
Days are lost
And filled with hate
Encased in ruin
Guilt ridden fools

Our destiny in fallen ruin
Fear subsides, we travel through
Faded skies now bequeath
This timeless torture violates

Horror infinity

Shrouded destiny
Pain is all we see
Life it cannot be
