Montgomery Gentry, All Night Long

Well the party started early About a quarter to three Just a few close friends Charlie, Troy, and me We just got started when somebody asked How long you think this party's gonna last?

I said all night long (all night long)
I said all night long (all night long)
We'll be rockin' we'll be rollin'
Gonna boogie-woogie all night long

Well the next door neighbors started raising a fuss Said you had a party and you didn't call us I said put on your dancing shoes and come along We'll be here till the cows come home

I said all night long (all night long)
I said all night long (all night long)
We'll be rockin' we'll be rollin'
Gonna boogie-woogie all night long
(and that's all night long)

(Ahh, guitar)

We'll be jumping through the windows and sneaking down the halls Dancing on the ceiling, dancing on the wall The last thing I remember 'fore the lights went out I jumped up on the table and I started to shout

I said all night long (all night long)
I said all night long (all night long)
We'll be rockin' we'll be rollin'
Gonna boogie-woogie all night long
(I mean all night long)

I said all night long (all night long) I said all night long (all night long) We'll be rockin' we'll be rollin' Gonna boogie-woogie all night long.
