

# Montgomery John Michael, Lucky Arms

He's got lucky arms  
He gets to hold her  
The way I know I never will again  
They're dancing close  
With her head on his shoulder  
Lucky arms, lucky heart, lucky him  
They don't see me standing in these shadows  
She don't know how bad my heart still aches  
He's holding on to everything I let go  
Sure is making good off my mistakes  
He's got lucky arms  
He gets to hold her  
The way I know I never will again  
They're dancing close  
With her head on his shoulder  
Lucky arms, lucky heart, lucky him  
Before too long the music will stop playing  
He'll take her hand and then he'll take her home  
I can just imagine what he's saying  
The way he's smiling I can tell he knows  
He's got lucky arms  
He gets to hold her  
The way I know I never will again  
They're dancing close  
With her head on his shoulder  
Lucky arms, lucky heart, lucky him  
Lucky arms, lucky heart  
He oughta thank his lucky stars  
Lucky arms, lucky heart, lucky him
