Moon Of Steel, Grey

I'm here It's what you want Dreaming Only to save me Hear you Strong what you say Feeling sorrow and pain now For your silence

Sadness They get you vile and stronger You're laughing for tears I give you How could I know

I am the game you are playing When all that you can Is abuse me like that So be it, take me along Just a body, no feelings But I fall easily Now I know what you want

Just let me stay here No words Simple And pure

Not in Your way Now I can play

Take me now, for what I am Just a game you like to play If it's the way it has to be Then let's be on our way Don't use mw to run away The chaos of your mind Don't use me to fill up The grey loneliness Cause I cannot stay here When hearing your lies I cry...again

I can feel Use me for waiting I'll stay here To see your pain Regain my soul And leave you Take all I am Leaving no more At your mere disposal
