

# Moonspell, Nocturna

High heels of crystal  
stuck in the heart  
daylight that heals  
the fullmoon scars  
Spider strategy  
and the wish to be  
at one with me  
throughout the fright

It is so real  
So full of light  
(when) Nocturna steals the night

Sister of cain  
all our breed slain  
the youthful oath  
remains the same  
le mal de vivre  
that never ends  
but the hunt (for you) goes on  
throughout the night

It is so real  
So full of light  
(when) Nocturna steals the night
