

# Moonspell, Shadow Sun

In your soul time  
When you're closing down  
Shadow sun  
Of the white sleep  
Of death  
I am standing still  
In the blackest rain  
Denying you  
Breaking day

In the name of nothing  
When we break apart  
I will raise the dead  
The chain of lies  
I am freezing over  
Crystal mountain clay  
Cloud of darkness  
Defeating pain

And then you fell  
Becoming darkness  
Shadow sun

Life is meaningless
