

# Moonspell, The Heart-Shaped Abyss

Never resist the firewalker  
He has been send  
To educate you  
Never look back at the great deep  
And never dance  
To that course he sings

Never resist  
The life long pessimist  
He is the leader and not the enemy  
My heart complete put to destroy you  
My darkness is obsolete  
Please let me follow you

And when we meet there  
Into the heartshaped Abyss  
you'll scar me with your kiss  
And when we meet there  
Into the heartshaped Abyss  
You'll forgive me everything  
Scared away get away

Never resist the firewalker  
He has been send to lay a course on you  
Never look back  
never resist  
Liar I am ready to push you

And when we meet there  
Into the heartshaped Abyss  
You'll scar me with your kiss  
And when we meet there  
Into the heartshaped Abyss  
You'll forgive me everything  
Scared away get away

Let's go away from this world  
To a place where we are still beautiful
