

Morandi, Everytime We Touch

Everytime a rise meet
I can always feel your heart beat
Everytime we touch
There can never be too much
I knew there I will love you
And you will love me too
For know until forever
We meant to be together

When you came and set me free
I was broken and lonely
Baby when you came to me
Love was just a memory
When you came and set me free
I was broken and lonely
Baby when you came to me
Love was just a memory

Can forget the sunset
Baby when we first met
Flying in the red light
I loved you from the first sight
You were beautiful and wild
I was felt like a child
From now until forever
We meant to be together.

When you came and set me free
I was broken and lonely
Baby when you came to me
Love was just a memory
When you came and set me free
I was broken and lonely
Baby when you came to me
Love was just a memory
