

Morandi, Living Without You

Hey baby, say baby
Do you even miss me anymore?
Baby, I've been dreaming
About us and the life we had before

Inside my heart is bleeding
All that I wish is to hold you again
You give me such a feeling
Come back and hold my hand

Living without you
My life is falling apart
Living without you
I tried but is breaking my heart

Hey baby, my baby
Do you still feel that we belong [?]
Gone crazy, so crazy
Can't live without you fot to long

Inside my heart is bleeding
All that I wish is to hold you again
You give me such a feeling
Come back and hold my hand

Living without you
My life is falling apart
Living without you
I tried but is breaking my heart
