

Mordor, The Rain

Rain - it's raining on my face and
cleaning me
It's like heavenly tears
Rain - it's raining from black clouds and
with the wind are singing lullaby
I'm I'm waiting now for you so so come alone
I'm I'm waiting now with rain so come alone
I'm looking at the sky and I'm looking there for you
I know you love the rain so you'll come
I'm looking at your face and your body which is wet
I know you love the rain so you'll come again
Cold rain always brings me you
You light my fire
Cold rain always brings me you
You light my fire
Cold rain cools my desires
But you light my fire
I'm I'm waiting now for you so so come alone
I'm I'm waiting now with rain so so come alone
Cold rain always brings me you
You light my fire
Cold rain always brings me you
You light my fire
Cold rain cools my desires
But you light my fire
