

Mortal Love, Falling For You

As the signs grow stronger
And our fate clearer
Take no precautions
Follow your leader
As our love grows deeper
And we fill each other
Still admire the darkness
Let it become larger
As life drifts further
Our beauty is the core
Always sighing after
Still I crave more
As hope alone grows higher
It struggles to be free
All that we can be
Fall...demise...all
We're...disguised...gone
Weep together the rain to come
Feel at heart, the pain is gone
