

# Most do Terabithii, Another Layer

I heard it on the radio  
Let it be, so I let go  
See if it made a difference  
I tried to walk a different pace  
Show the world, the other face  
I hide away because of day  
Oh, oh oh, oh, oh oh, I am not the same  
Oh, oh oh, oh, oh oh, if a change  
Nothing's ever what it seems  
You thing you've got it figuret out  
Then find yourself another layer  
A laugh can bring you to your knees  
Or lift you till you're flying  
Do you wanna live it now or later  
Memory refused to find  
It wasted on the color blind  
It fades away, lost in the gray  
And all of us who sit alone  
Pretending that there's no one home  
Behind the door, what're we hiding for  
Oh, oh oh, oh, oh oh, we are all the same  
Oh, oh oh, oh, oh oh, if a change  
Nothing's ever what it seems  
You thing you've got it figuret out  
Then find yourself another layer  
A laugh can bring you to your knees  
Or lift you till you're flying  
Do you wanna live it now or later  
You may not get a second chance  
Is not all out of my hand  
Now is not gonna pass me by  
Nothing's ever what it seems  
You thing you've got it figuret out  
Then find yourself another layer  
A laugh can bring you to your knees  
Or lift you till you're flying  
Do you wanna live it now or later  
Cause nothing is ever what is seems  
You thing you've got it figuret out  
Then find yourself another layer  
A laugh can bring you to your, bring you to your knees  
Or lift you till you're flying  
Do you wanna live it now or later
