

Mother Mother, Little Hands

My baby's gone like a flame
Put out by the rain
Water down the drain
Little face, little feet, little hands in my mind
Where I'm crying all the time
Where I'm crying all the time
Little face, little feet, little hands in my brain
Driving me insane
Driving me insane
Little face, little feet, little hands not around
No more little sounds
No more little sound
My baby's gone like a flame
Put out by the rain
Water down the drain
