

Motion City Soundtrack, Plymouth Rock

She says it's good to get tan
She says it's bad to get burned
She says it's great gettin' high
She says it's lame to get fried
She says there's way to many drugs
Too many choppy chunky thugs

And it ain't no fun falling five flight of stairs
(But your real fear is fifteen)
And it ain't that sweet workin' six nights a week
(And the swim suit gets ripped and it's dripping wet with frosting)
It's colossal, it's much bigger than us
(It's the shit they stick in liquor, makes us lick the chicks we don't even love)
And it ain't that great, and it ain't that great
