

# Motley Crue, Babykills

She's a revolution  
Anarchy in hell on high heels  
I get called the villain  
Washin' down my love with her pills  
Lips are speakin' chaos  
But her eyes are  
As blue as the sea  
She carries Mother's Bible  
Mixes valium with her beliefs  
And you know she gets me high

I've seen flowers and razors in her hair  
She's walkin' trouble with her innocence  
I'll just sit here thinkin' on my window sill  
She keeps me high, Miss Babykills

She's sugar but she's spicy  
Licks the venom off her lips  
Dresses like a school girl  
Loves her poisoned fingertips  
I just know I love her  
Sent from up above for me  
And you know she gets me high  
I've seen flowers and razors in her hair  
She's talkin' trouble with her innocence  
I just sit here thinkin' on my window sill  
She keeps me high, Miss Babykills

I've seen flowers and razors in her hair  
She's walkin' trouble with her innocence  
I just sit here thinkin' on my window sill  
She takes me higher  
Takes me higher

I've seen flowers and...  
I've seen razors blades  
I just sit here dreamin of my latest fill  
She steals' my heart, Miss Babykills
