

Motley Crue, Catch Me If You Can

Hop into my gto, my big old speed machine
Girls like it 'cause it's runnin' hard
They like it 'cause it's clean
Sittin' at the signal, these fools gave me a sign
That's okay, I shot away and left them all behind
It's all I needed, to blow a little steam
Last thing everybody heard, was when I started screamin'
Catch me if you can

You can't catch me
Catch me if you can

Found myself a woman, got her in my sights

Slides into the backseat and she holds my stickshift right
Tells me that she wants it, my pedal hits the floor
Let me park in your garage bitch, open up the door
My head is poundin' and I don't know why
Don't need no gasoline, I'm stuck in overdrive
Catch me if you can

My head is poundin' and I don't know why
Don't need no gasoline, I'm stuck in overdrive
Oh oh baby I think I'm gonna die
With you and my car, I'm breakin' all the rules
You are the only one, as fast as I am
Catch me if you can
