Motor Ace, Carry On

Looking for a single thread Of melody to help me get by Where we're passing the time

Is it real?

Does it give too much away?

It's pouring out my heart

Till you come back

A reason to stay

Do you know

Is this way home?

Is this way

We just stare while the wheels fall off

But everyone seems to carry on, carry on

No time to tell you How much we lost

Cause everyone needs to carry on, carry on

Looking for some words to say

There's no familiar faces round here

But the feelings the same

Is it real?

Does it give too much away?

It's pouring out my heart

Till you come back

A reason to stay

Do you know

Is this way home?

Is this way?

We just stare while the wheels fall off

But everyone seems to carry on, carry on

No time to tell you

How much we lost Cause everyone needs to carry on, carry on

Carry on

Carry on

(Carry on, carry on)

Carry on

(Carry on, carry on)

Everyone needs to carry on, carry on

The places you know

The friends that you owe

Somewhere to go

Does it pay to be alone?

Will i fall?

Is this way home?

Is this way home?

Is this way home?

We just stare while the wheels fall off

But everyone seems to carry on, carry on

No time to tell you

How much we lost

Cause everyone needs to carry on, carry on

Carry on

Carry on

Carry on, carry on

Carry on

Carry on

Everyone needs to carry on, carry on

Carry on

It's the way I feel

Seem's like it's taking me over
