Motorhead, Bang To Rights

Took her to a bar, I though I'd covered all my tracks Thought I had it made, I felt daggers in my back You came walkin' through the door sailed into the attack Don't seem to be my night You got me bang to rights

I ain't gonna fight it baby, there ain't no excuse Don't know what to tell ya, but I hope you don't cut loose It don't matter anyway, my head is in the noose You got me stitched up tight You got me bang to rights

I can tell you ain't exactly listening to me I just wish that I could thing of some place else to be I'm gonna make it up to you, just you wait and see My future ain't too bright You got me bang to rights
