

# Motorhead, Born To Raise Hell

Listen up here, I'll make it quite clear  
I'm gonna put some boogie in your ear  
Shake and bop, don't you stop  
Cance like a maniak until you drop

I don't mind, I don't mind  
I can tun a razor right up your spine  
What are you waiting for  
What do you think you were created for

Show us, you care, show us you dare  
You don't know what happened, not if you weren't there

Born to raise hell, Born to raise hell  
We know how to do it and we do it real well  
Born to raise hell, Born to raise hell  
Voodoo medicine cast my spell  
Born to raise hell, Born to raise hell  
Play that guitar just like ringing a bell  
Take it or leave it

Going for broke, rock 'til you choke  
It don't matter if you drink or smoke  
Speak through the beat, get up on your feet  
Sweating like a hpund dog, white as a sheet

Don't you be scared, don't you be scared  
Everybody terrified, it don't seem fair  
What are you waiting for  
What do you think you were created for

Out of your seat, blind in the heat  
Do the nasty boogie mama, stomp your feet  
Born to raise hell, Born to raise hell

We know how to do it and we do it real well  
Born to raise hell, Born to raise hell  
We know how to do it and we do it real well  
Born to raise hell, Born to raise hell  
Go back to zero take a pill and get well  
Be a good soldier and die where you fell

Born to raise hell, Born to raise hell  
We know how to do it and we do it real well  
Born to raise hell, Born to raise hell  
Go on out and boogie 'cos you never can tell  
Born to raise hell, Born to raise hell  
Be a good soldier and die where you fell  
Born to raise hell, Born to raise hell  
We know how to do it and we do it real well
