

# Mott The Hoople, Shout It All Out

(Overend Watts)

Still asleep, there's ringing in my ears  
Hearing you, you don't know how it feels  
You could have chose a better time  
To call me on the phone  
But I don't care it's worth it  
Just to see how things are going for you

Oh, oh, shout it all out  
You know I'll listen  
How you knocked them all out  
But still something's missing

So you're back, what happened to your gig  
I warned you, you wouldn't make it big  
So drop your downs and come around  
So you can play your part  
I'm too far gone to stop you  
There's a big hole in my heart

Oh, oh, shout it all out  
Don't make me laugh  
How you put it about  
Just tell me how

Now I hope you'll see  
That made you such a fool  
But you're not listening  
You think I'm being cruel

Oh, oh, shout it all out  
I'll go away  
Oh, oh, any about(?)  
Is there no escape

Oh, oh, shout it all out  
You know I still care  
How you knocked them all out  
Give me some fresh air
