

Moving Units, Between Us and Them

It's so clear now, I'm understanding
and the furniture matches the ceiling
if it was different than you had expected
will you pardon me, i wasn't selected
I know it's difficult so I will be patient
i guess we have to abstract if it's ok yeah
i'll make it easy for you, what a disaster
maybe it's better off this way, better off this way
It's a task and then when you complete it
will you love me when I wasn't needed
cause it's natrual to feel unfaithful
and you're going to be anyway
I know it's difficult now but you can try to
wasn't with all the fuss cause i feel so seamy
i'll make it wasy for you, what a disaster
we couldn't go wrong any faster
I never wanted anything (3x)
I never wanted (3x)
