

# MoZella, Messiah

Amazing grace came in the form of a slap in the face,  
Now I don't believe what I see anymore,  
&#039;Cause it's all the same,  
We wander in and out of love like it's meant to scar us and we never change,  
No we never think to change

But don't tell me that I'm wrong,  
You know I'm not that strong,  
And I never thought that loving you would hurt for so long

Chorus:  
I worshipped you and I praised your name,  
And I lived through you like a messiah

While saving face I let my pride control me,  
When you refused to hold me and I never placed blame,  
And then one day it just occurred to me that you talked,  
And never heard me and,  
I stood by you and never changed,  
No we never think to change

But don't tell me that I'm wrong,  
You know I'm not that strong,  
And I never thought that loving you would hurt for so long

Lyrics  
I worshipped you and I praised your name,  
And I lived through you like a messiah

I worshipped you and I praised your name,  
And I lived through you like a messiah

And I bled for you and screamed your name,  
And I live through you like a messiah
