Mr. Big, Static

You've been runnin'
But there's no one to run with
Hey where you gonna run
You've been dyin'
But there's no one to stop it
Oh! What are you gonna do

Static up in your mind, interference
Static cloudin' your head
Static causin' confusion
All the way sown the wire

You've been fallin'
But there's no one to catch you
Oh! Where you gonna land
You've been chasin'
Now you're all set to crash
And burn
What are you gonna do!

Static up in your mind,
Interference
Static cloudin' your head
Static causin' confusion
All the way down the wire

Solo

Repeat chorus
