

Mr. President, 4 On The Floor

(Mike Muggy)

I remember walking in the park
And I remember singing along
Laughing playing things we were saying
But do you remember the song
Why don't we take it slow
Why don't we take it slow
The face you put on has fell
I tripped over your heart as well
Never thought it'd be this way
Nothing lasts forever they say
Why don't we take it slow
Why don't we take it slow
Good times come and man they go
Why don't we take it slow
I remember the very first time
Since then the butterflies have died
Imagination's got my memory
I knew it was over when
You said to me
Why don't we take it slow
Why don't we take it slow
Good times come and man they go
Why don't we take
Why don't we take it slow (Why don't we take it slow)
Why don't we take it slow
Good times come and man they go
Why don't we take. . .
