

# Mr. President, Don't You Ever Stop

You can be sure that I know my part  
I knew what to do right from the start  
My passion it comes straight from the heart  
I hope that we two will never part  
There were times when the world was so unreal  
Now here's what I feel

Don't you ever stop  
Don't you ever stop  
To be the one who can always keep me up  
Don't you ever stop  
Don't you ever stop  
To be the one who will always keep me up  
In my mind, you're the kind  
That can help me out of trouble  
Sure enough, there's my love  
Easy you can make it double and you know

If you would ask what I feel for you  
I'd say that my love for you is true  
Come rain, come shine, whatever you do  
The feelings I have they're oh so new  
There were times where I didn't even know  
What to do

Don't you ever stop  
I know, I know you'll never  
Don't you ever stop  
I know, I know you'll never  
In my mind, you're the kind  
I know, I know you'll never  
Sure enough, there's my love  
I know, I know you'll never stop
