

Mr. President, Simbaleo

Refrain

Show me the way to your heart
and trust your emotions
right from the stars.

Show me the way to your heart
together never to part.

Rap1:

You and me we are made for each other
together forever each one for the other
we meet each other on a friday night
I was the D.J. and you looked alright
you're the girl in my arms I see
we two together it means to be
would you have to love and to hold me
or better still girl do you really love me.

Refrain ...

Rap2:

I even asked you believed in marriage
me and you in a horse drawn carriage
all I knew that my heart was gone
you we're right
nothing could go wrong.

One day I'll make this a love song
to let you know that you are the right one
would you have me to love and to hold me
or better still girl do you really love me.

Refrain ...

Bridge:

I just can't believe it
I'm truly I love
you must have been sent from heaven above.

Refrain ...

Interlude:

Now that love is not just an illusion
cause you came along to blow my confusions
away.
