

Mr Sam, Lodestar

Your light will fade
And I'll be waiting
Why do you leave?

From first to last
Present to past
Electrocuted
Tied to the master

Better days ahead
Outside my head

I lost control baby
I followed you all the way
Am I out of control?

Lodestar [x3]

[chorus]
(?) Your body flame
Your light will fade
And I'll be waiting
In your shade

(?) The touch of your life
(?) Dust your end
Why do we leave?
What do we bring?
[end chorus]

[repeat chorus]

In hands of grace
Fortuned your face
I followed you
Now I haunt this place

I love you
Frozen
In time
In my heart

I lost control baby
I followed you all the way
But only in my dreams
Oh, lodestar

[chorus x2]

Hey lodestar
Hey lodestar

Your light will fade
And I'll be waiting
Why do you leave?
