

Mudhoney, Crankcase Blues

Got that crank shaft stickin'
Straight into your center line
When the piston goes down
Your blood is sure to poison your mind

Got a broke down engine
But you're not losin' any speed
Goin' downhill so fast
You're sure to burn, sure to burn
Sure to burn and bleed

Fully cranked weeks at a time
Believin' you're some kind of machine she gave you water
When you asked for gasoline

Got a broke down engine
But you're not losin' any speed
Goin' downhill so fast
You're sure to burn, sure to burn
Sure to burn and bleed

Got a mess of problems
That you insist on tellin' everyone
Too bad, too bad, too bad
Your motor mouth still runs and runs

Got a broke down engine
But you're not losin' any speed
Goin' downhill so fast
You're sure to burn, sure to burn
Sure to burn and bleed
