My perspective on life is pain

Sponge textured soul so porous i cant drain

I just absorb violations of the pledge

You swore to me your perjury

Detours the life of my child

Chicanery from you for me violates natural instincts in you

Dissolve does the sibling

Artificial sympathy

You braid the noose you hang me in guilt your guilt

You blame me septen up the empathy

Broken lover in your head

Mental material mother she left and dead

Glacial feeling inherited

Pathetic mode of principle

Now i see the industry where you belong is killing

My deception in life was you

You bring all the pain that im used to

Double vision is my view

Conditions that tear right through my mind pain...

In my head i harness

It keeps my faith frigid love..

In my body doesnt breathe hate..

Dont know how much i fuckin hate you

Look what you've done to me

You won't leave me alone

Come back

No no no
