

Mudvayne, Pushing Through

Rip the womb

Feeling so sorry

Selfish and sore

Wish I wasn't born

Piece by piece I can carry it all

Strength to be driven

So unforgiving anything is possible

Like leaving you all

I'm turning my back on this killing so small

Step by step I'm pushing through this

(All of you get away from me)

Eye for an eye I'm pushing through this

My law

Step by step I'm pushing through this

(All of you get away from me)

Tooth for a tooth I'm pushing through this

Through you

Salt the wound

Cut through a conscience I've failed to explore

The calm before the storm

Speak your peace and prepare for the fall

Words have been chosen

Tainting the gift

Lying truth's so incredible

So fuck you all

I'm turning my back on this killing so small

Step by step I'm pushing through this

(All of you get away from me)

Eye for an eye I'm pushing through this

My law

Step by step I'm pushing through this

(All of you get away from me)

Tooth for a tooth I'm pushing through this

Through you

Spread the word

The killing is over

Spread the word

The killing is over

Severed, more than I am, more than I ever was,

Blindside, threatened, my worth, sequestered

Deliverance

You stoned a part of me

You've taken a part of me

Try

You wanted to be

Wanted to have a life

You wanted to fight

Wanted the right...Your lies

Spoken to me without a conscious

No right

Why

Breaking a mold

Breaking the trust

A child

Innocent lost

Ultimate cost

The loss

Life so undone

Deserted the seed

You've buried the bottle

Step by step I'm pushing through this

(All of you get away from me)

Eye for an eye I'm pushing through this

My law

Step by step I'm pushing through this

(All of you get away from me)

Tooth for a tooth I'm pushing through this

Through you

Step by step I'm pushing through

Eye for an eye I'm pushing through

Tooth for a tooth I'm pushing through

Pushing through

Pushing through

Pushing through

Pushing through

Pushing

Pushing

Pushing

Pushing through
