

# Mull Historical Society, Minister For Insurance An

I lost a friend  
The second that I turned around and chose to spend  
My second life in office mediocrity  
My first was in a state gone from my memory

I'm waking up with the Minister  
Turn on a new debate  
Working with industry  
Catching another plane  
I'm waking up with the Minister  
Turn onto pay-per-view  
Taking a final stand  
Staring in TV land

A new debate  
Working night & day to feed my family  
I'm pushing pens and pushing pens  
The claims they stake  
Insurance claims on aeroplanes  
My life is here

I'm waking up with the Minister  
Turn on a new debate  
Working with industry  
Catching another plane  
I'm waking up with the Minister  
Turn onto pay-per-view  
Taking a final stand  
Staring in TV land

We're Ministers abroad  
We're Ministers at home  
We're trying to keep our jobs

Economy class and smile on the planes

I'm waking up with the Minister  
Turn on a new debate  
Working with industry  
Catching another plane  
I'm waking up with the Minister  
Turn onto pay-per-view  
Taking a final stand  
Staring in TV land  
We're Ministers abroad  
We're Ministers at home  
We're trying to keep our jobs  
We're trying to climb the rope  
We're Ministers abroad  
We're Ministers at home  
We're trying to keep our ropes

I'm bored  
I'm bored
