

Mull Historical Society, Us

Only if I let you go will I ever be true
Only if I let you know will I ever feel you
There are things that I've held before
But I'm scared to drop cause I want this more
And I like to feel that I'm in control
But the truth is out that I can't let go

And I'll let you know when I let you go
And I'll let you know when I let you go
And I'll want you more when I've let you go
And I want to know why I can't let go
And the simple things are so hard to know
But I can't afford not to let you know
Do you mean to be what you mean to me?
Cause I need to know oh I've got to know

And I'll let you know when I let you go
And I'll let you know when I let you go
And I'll need you more when I've let you go
And I want to know why I can't let go

I was Us when you were you and
I was Us when you were you and
I was Us but you're still you and
You're still you and you were you

And I'll let you know when I let you go
And I'll let you know when I love you so
And I'll need you more when I've let you go
And I want to know why I can't let go

I was Us when you were you and
I was Us when you were you and
I was Us but you're still you and
You're still you and you were you

And
And you you

I guess you knew, I guess you knew
I never knew it was old news
Fine
