

# Mulu, Is It Me?

He had a larger than life moustache.  
I felt the heat fall on my back.  
Don't know if it's fofofollowing me,  
But it goes straight to my head

My temperature rises as the paranoia sets

In, in, in to a shop I go to see  
If someone's there I might know.  
Just a spooky monster in the mirror that's me,  
Oh god, oh no, it can't be.

Is it me ?

Wanted to run to but it comes from  
Wanted to run to but no-one comes to rescue me  
But nobody knows, myself, it's me, I just can't see

My temperature rises as the paranoia sets in  
My temperature rises as the paranoia sets in.  
My temperature rises as the paranoia sets in  
My temperature rises as the paranoia sets in

Is it me ? Is it me ?  
Is it me ? Is it me ?  
Is it me ? Is it me ?
