

Mungo Jerry, Where Are You

You told us you were everything,
You said that you were more than life itself,
They told us you would help us when trouble was at the door,
You know I put my trust in you,
I thought that you would always understand,
So please don't let us down because we need you now

CHORUS

Where are you, where are you,
You know that the time is now,
To show your face, in darkness help light, guide the way

We wanna walk the streets in peace,
Relax and laugh and sleep at night,
We wanna raise a family, not shelter from the world,
It says here in the book, it says this is the Gospel truth about you,
You know I do believe but I don't like what I see

REPEAT CHORUS
