

# Murder City Devils, Stars In Her Eyes

I know it's hot up there  
Well You should know  
It's hot down here too  
And we're stuffed in  
We're stuffed in like cattle

And I know  
I know you'll play your heart out for us  
And if you fall  
You will fall with grace  
Let me tell ya somethin'  
Thats right  
You were a star in the mirror  
Before you were a star  
Up on the stage  
And I said honey  
I said baby  
You were born with  
The stars in your eyes  
With the stars in your eyes  
And if you fall  
You will fall with grace

The songs are short  
And your hem is short too  
I know  
I know it's hot up there  
Well it's hot down here too  
You're gonna play  
You're gonna play your ass off for us  
Just like you always  
Do  
Like ya' always  
Do

And you were  
A star  
In the mirror before  
You were a star up on the big stage  
And I said girl  
I know  
You were born  
With the stars in your eyes  
With the stars in your eyes

We got  
We got  
We got our eyes on you  
I hope  
I hope you know  
We really  
And I mean it  
I said we really love you  
And you should  
You should know that  
And I hope  
I hope you love us too  
Half as much as  
Half as much as we love you
