

# Muse, Save Me

Save me from my superstitions  
Now, I'm free from the soul's condition  
Wait just a while  
And I'll greet you with a smile  
Hold me 'cause I'm sure I'm hated  
Promises they are overrated  
Wait just a while  
While I'm drowning in denial

Turn me into someone like you  
Find a place that we can go to  
Run away and take me with you  
Don't let go, I need your rescue

Watch me 'cause I'm on a mission  
Hold me back so I'm forced to listen  
Don't let me go  
'Cause I'm nothing without you

Turn me into someone like you  
Find a place that we can go to  
Run away and take me with you  
Don't let go, I need you rescue

Turn me into someone like you  
Find a place that we can go to  
Run away and take me with you  
Don't let go, I need your rescue
