

Mushroomhead, One More Day

Cancelled compasion
This our ignorance
Smile everlasting
Much less eminent
Stay time heals everything
One more day to regret
One more day to regret

In my eyes i see
Free delevrance
Not everlasting
Such is punishment
You take me higher
Than the lowest place yet

One more day to regret
(one more day)
One more day to regret
(one more day to regret)
One more day to regret
(one more day,one more day)
You take me higher (one more day to regret)
Than the lowest place
You take me higher
Than the lowest place
(both) you take me higher
Than the lowest place yet
(than the lowest place yet)

(than the lowest place yet)

Cancelled compasion
This our ignorance
Smile everlasting
Much less eminent
Stay time heals everything
One more day to regret

One more day to regret
(one more day)
One more day to regret (one more day)
(one more day to regret)
One more day to regret
(one more day,one more day)
You take me higher (one more day to regret)
Than the lowest place
You take me higher (one more day)
Than the lowest place (one more day)
You take me higher (one more day to regret)
Than the lowest place yet (one more day to regret)
(one more day)
One more day to regret
(one more day to regret)
