

# Musiq Soulchild, Lullaby

[Verse 1:]

Girl I feel like making something  
To make your mind and your body relax  
That can make you feel good, real good, yea  
And make you wanna keep callin' back cuz  
Love, the way I feel about you right now  
Makes me wanna take you up to cloud 9 cuz  
With all this love I gotta give let me show you how  
I can fill you with this love inside cuz

[Chorus:]

All I wanna do is spend the night with you  
Put your mind at ease  
Just like a lullaby, just like a lullaby  
And baby if you just give me your trust  
I'll shower you with love  
Til' you fall fast asleep  
Just like a lullaby, just like a lullaby

[Verse 2:]

I can make your body (twinkle, twinkle)  
And make your eyes glisten like (little stars)  
Just looking at you baby (oh how I wish)  
I can make you see how (beautiful you are)  
Cuz love, ain't nothin' more precious than when (no, no)  
A woman and man come together as one  
So take off your clothes and lay back  
And let me hear you say that you're ready for this love

[Chorus]

[Bridge:]

Baby close your eyes  
Let me hold you tight in these arms  
And make you feel like you're tucked away  
Cuz I'll keep you safe from harm  
Cuz baby you know I got you (don't worry baby)  
Cuz all I wanna do

[Chorus x2]
