

# Musiq, Youloveme

Girl lately I been thinkin' bout  
The times that I shared with you  
And there's something that I figured out  
Darlin' you must have been heaven sent  
There isn't nothing better than  
The things that you say and do, no  
So why do I feel I'm being played for a fool  
Cause whenever you call on me I come through for you  
But when I need ya you can't seem to uhh do the same for me  
And I love that you pay yo phone no mind when we're alone  
But sometimes when I try to reach ya  
I wonder if ya just busy or you don't know that it's me

Chorus:

Cause you love me don't ya  
I know you do  
Cause of all the wonderful things that you put me through  
I know you love me cause I love you too  
So tell me why is it I having thoughts about you

Now everyday when you're around  
You always cater to my needs  
Like you seem to be concerned if I'm  
Eating or sleeping properly  
It has to be the greatest thing  
To know the one you love, loves you back  
Or is the love you have for me really true or is it just a act  
Cause when youre hard at work and when im hard at work  
and we cant talk we just page each other with our sexually wishes  
but when were spending quality time and yo pager rings I wonder  
who could it be when you answer laughing at your reply  
or is it I'm just being suspicious

Chorus 1x

now maybe im just a hopeless romantic  
for these matters of the heart and soul  
I hope we can grow to raise our family  
Honest and trust and happiness and love

Chorus 2x
