

Mustafa Sandal, All My Life

All my life (in my life)
It's my life (oh oh yeah)

People thought that I was wrong
and I know they didn't believe me
I knew that I would carry on
and I knew that they would see
I made a wish for a star
and that I had my dreams
Hoping I'll go far 'cause it's all that I need

All my life
I'd been waiting to show the world
cause it's my life
gonna let you know just what I'm made of
and now that I see my destiny
must have been waiting here for me
cause I'm gonna make it right
It's my life

And I think to myself
I've been longing for this moment
I feel I've got nothing left
But I don't want nothing else
Cause I know that my time
has finally come
And I only hope that I'll be the one

I'm standing here
I made it this far
And I know I will never be the same again
I close my eyes
I can feel the changing rise within
they call my name
they call my name
