

Mustafa Sandal, Moonlight

Love is like the moonlight
(Love is like the moonlight
I never wanna lose you
Never break your heart)

Love will surround you
Nobody'll find you in my heart
And in my dreams
I'll never let you go

Love will surround you
Nobody'll find you in my soul
I am with you
I'll never let you down

Fly away with every little touch from you
away imagination takes you there
in my mind and in my soul I'll be with you
My Love's shining in my heart

Love is like the moonlight
And is shining in my heart
Everything will be right
As long as I'm here with you

Love is like the moonlight
And is shining in my heart
Even through the darkest nights
I'll be there with you

Love is like the moonlight
Love is like the moonlight

Love will surround you
Nobody'll find you in my heart
And in my dreams
I'll never let you go

Love will surround you
Nobody'll find you in my soul
I am with you
I'll never let you down

Fly away with every little touch from you
away imagination takes you there
in my mind and in my soul I'll be with you
My Love is shining in my heart

Love is like the moonlight
And is shining in my heart
Everything will be right
As long as I'm here with you

Love is like the moonlight
And is shining in my heart
Even through the darkest nights
I'll be there with you

Love is like the moonlight
Love is like the moonlight
I'll be there with you

(I can tell that I am on fire
cause your lights are taking me higher

cause the touch of your glow
and the warmth of your soul
I am surrounded by ?? desire
If you hold you can impress me
you can love and kiss and curress me
but your liars and touch of your sins
come here to posess me) ??

Love is like the moonlight
And is shining in my heart
Everything will be right
As long as I'm here with you

Love is like the moonlight
And is shining in my heart
Even through the darkest nights
I'll be there with you

Love is like the moonlight
Love is like the moonlight
