

# Mustasch, Double Nature

&lt;!-- Born a believer, I walk alone  
Cant find a place where I feel at home  
Well Im crazy, but I am sane  
Im guilty, but not to blame  
This is my nature, who I am  
If you dont like it, here I stand

I wanna keep it, though I eat it  
Shove it in my mouth  
I can't control my evil I  
I wanna keep it, though I eat it  
Have a bigger bite  
I love you baby, though I hate you  
I'm a Double Nature!

Now a heretic, I have become  
I've lost my faith in god and man  
I am a demon, free from sin  
But theres no angel who lets me in  
My wheels are rolling, theyre rolling fast  
Straight outta hell, away from my past

I wanna keep it, though I eat it...

Now heres a warning, some final words  
Turn me down, and youll burn, burn...  
I am awoken, I never sleep  
My eyes are bleeding, Im a freak  
Im short of patience, dont mean no harm  
Im just a guy with a burning heart

I wanna keep it, though I eat it... --&gt;
