

Mutya Buena, Sunshine

From the moment we first met
I knew the love was imminent
You came just in time
You made a lifeline
And forever Ill be in your debt (debt)

My girls asked me
Where Ive been so Ill
Tell them one more time again
Im chilling with you
What else can I do?
If you want me
I have no intent

You're like sunshine
You help me get through my cloudy days
Change my perception of how love is made
I cant imagine my world without you
Sunshine
