

# MxPx, Cold And Alone

I know I'm mean but I'm real sorry  
I didn't mean to make you cry  
I feel so bad by then it's too late  
You're hurt, I'm mad, is this goodbye?

I've dug down far too deep now  
I've dug down far I'm losing sleep

You know it's hard you know I'm trying  
To understand to do what's right  
I don't like to see you crying  
I don't like it when we fight

I've dug down far too deep now  
I've dug down deep I'm losing

Cold and all alone  
Out there on your own  
Cold and all alone  
Living on your own
