

# MxPx, Drum Machine Joy

drum machine joy - drum machine joy soon the goodness king  
will hear your heart from within the castle to his warm hearth granting hope  
and wisdom to your soul the evil spell of sadness has been broken in your heart,  
there's a world of sadness i love you with all heart in your heart  
with my words i promise to love you with all heart,  
and drum machine joy soon the goodness king will hear your heart  
from the northern kingdom comes a faint sound growing stronger  
here before the heart the chorus of the king has come to heal your heart  
in your heart, there's a world of sadness i love you with all heart  
in your heart with my words i promise to love you with all heart,  
and drum machine joy [music interlude]
