

# MxPx, Lonesome Town

They always said that lonesome town  
Was where I'd spend my days  
Cuz I just couldn't settle down  
My life was such a craze

They always said that Lonesome Town  
Would finally get to me  
But lonesome is the only way  
That I truly feel free....eee

Lonesome Town is crowded  
And everyone's the same  
With fresh new starts and broken hearts  
Where no one knows your name  
Though Lonesome Town is crowded  
I'm always first in line  
With fresh new starts for broken hearts  
And wasting all my time

Well Lonesome Town its got its good  
Its sure enough got its bad  
Like walkin' round that big dance floor  
For the date you wish you had

They always said that Lonesome Town  
Would finally get to me  
But lonesome is the only way  
That I truly feel free....eee

Well lonesome town is crowded  
Where everyone's the same  
With fresh new starts and broken hearts  
Where no one knows your name  
Though Lonesome Town is crowded  
I'm always first in line  
With fresh new starts for broken hearts  
And wasting all my time

You're either born to lose or you're born to win  
That's just what I've found  
But I've come to accept the fact  
(Come to accept the fact)  
I've come to accept the fact  
(Come to accept the fact)  
That's right I've come to accept the fact  
That I was born in Lonesome Town
