MxPx, My Mistake

I've broke everything what we had
theres no fixing of what went bad
so many fatal mistakes

I've broke every single rule
and I don't think they made a tool
to fix all my mistakes

When I said goodbye
it brought a tear in your eye
that was my mistake

When I told you to go
cause I just didn't know
that was my mistake

I broke down inside my mind
thought I was doing fine
so hard on myself
broke up everything that I build
now I'm living with a guilt
as least I have my health

When I said goodbye
it brought a tear in your eye
that was my mistake
when I told you to go
cause I just didn't know
that was my mistake

Time will heal
bruises fade
Life will change the plans we made
if we face the truth
it be our best
not need to worry about the rest

When I said goodbye
It brought a tear in your eye
that was my mistake
when I told you to go
cause I just didn't know

that was my mistake [x3]
