

MxPx, So This Is Christmas

So this is Christmas
but there's no snow at sight
It's not the way that I remember
what I think to weigh December white

So this is Christmas
I don't have much word to give
This is Christmas
Find it in you heart to forgive
'cause this is Christmas time

Rent me for pardon
and I'll make it up to you
the sight screwed up so many times
now my emotions all starts going down

So this is Christmas
I don't have much word to give
This is Christmas
Find it in you heart to forgive
'cause this is Christmas time

You didn't know me then
Now you know me now
You didn't see me back then
But now you see me now

So this is Christmas
I don't have much word to give
This is Christmas
Find it in you heart to forgive
'cause this is Christmas time
