

# My American Heart, The Takeover

Right now we'll start your brand new life.  
Your night of human war.  
The start of war against them all oh no.  
Watch as we encounter a wall but make believe,  
as we are suffering.

Watch us ride tonight.  
We will rape we will take you off your feet.  
Watch our eyes collide.  
We will dance we will get back up and sing.  
We will dance 'til we have no beat tonight.  
Feel the takeover.  
Let it sink into your veins.  
Let it burn until it drives us all insane.  
See the makeover.  
We will ride until we die.  
We will ride until we lose our minds tonight.

So listen close there's a few things on our minds.  
We've been through hell and now it's time to shine.  
Hit the floor if you're ready for more.  
Hit the lights if you're feeling alright.  
Pick it up, pick it up now it's your time.  
Watch us ride tonight.

We will rape we will take you off your feet.  
Watch our eyes collide.  
We will dance we will get back up and sing.  
We will dance 'til we have no beat tonight.  
Feel the takeover.  
Let it sink into your veins.  
Let it burn until it drives us all insane.  
See the makeover.  
We will ride until we die.  
We will ride until we lose our minds tonight.
