

# My Black Sky, I'm Lost Without You

you said that when you were mine  
you were wasting your time  
you're now with that guy  
but he'll make you cry  
did you know  
you threw me an arrow  
i tried to pass below or over  
but i always remember...

(chorus):  
..the time we were together  
the time we were saying "it's for ever"  
the time i was thinking about you  
i'm lost without you  
(i always remember...)  
..the time i cried  
...the time you lied  
the first time i looked at you  
i'm lost without you...

why are you lying ?  
why am i always crying ?  
i said that i'll always love you  
and that's what i'll do  
when you look at me  
it's so hard for me  
'cause i tried to pass below or over  
but i always remember...

(chorus):  
..the time we were together  
the time we were saying "it's for ever"  
the time i was thinking about you  
i'm lost without you  
(i always remember...)  
the time i cried  
the time you lied  
the first time i looked at you  
i'm lost without you...

(bridge):  
im in love but you dont care  
you could be anywhere  
i'll always think about you  
and i'll always miss you  
'cause i always remember...

(chorus):  
..the time we were together  
the time we were saying "it's for ever"  
the time i was thinking about you  
i'm lost without you...  
(i always remember...)  
...the time i cried  
...the time you lied  
the first time i looked at you  
...i'm lost without you...
